

Choke

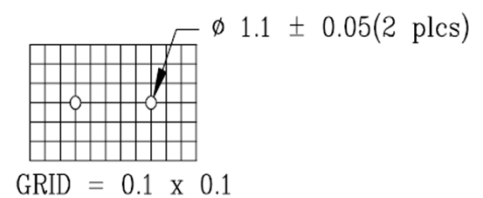

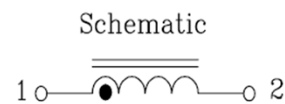

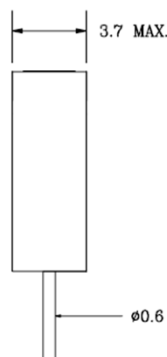

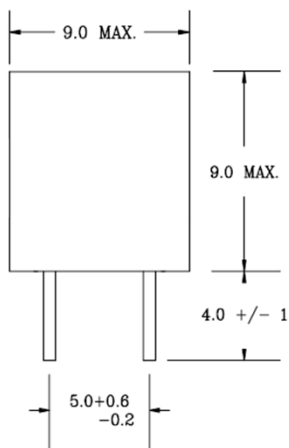

EMC Suppression Choke

8451-8453

- Use of high loss ferrite materials for excellent high frequency noise absorption
- High impedance for normal mode applications
- Designed to absorb high frequency noise from digital equipment data lines

MECHANICAL AND SCHEMATIC (All dimensions in mm)

ELECTRICAL SPECIFICATION @ 25°C

Part Number	Inductance	DCR	DC Current	Impedance (ohms) typical		
	uH	ohm max.	A max.	400 MHz	200 MHz	100 MHz
8451	1.0 note*	.08	0.50	800	---	---
8452	10.0 min	.05	1.50	---	900	---
8453	20.0 min	.08	1.50	---	---	2000
